

There's always another road to choose.

One which takes us beyond our limits and habits to lets us try different routes and explore new horizons, with a dedication to results and a drive to innovate, aware of goals reached, and ready for new challenges.

In this world so mobile we're taking cleaning further, to where true hygiene, ecology and value become one, where a means of transport is truly about comfort, wellbeing and freedom; and where our ideas, research and technology are blending to build the future.

It will be an exciting journey: we'll take it together.

MINIMAX

MINIMAX

GREAT PERFORMANCE IN SMALL SPACES

With MiniMax, Ceccato presents a system with extremely limited overall dimensions (just over 9 metres of structure in its smallest configuration) and excellent productivity. Complete, reliable, and innovative.

MINIMAX offers

a unique modern design to capture the attention of your clients;

versatility in installation and optimization in use, made possible by the self-supporting structure;

the safety and look guaranteed by the protective devices and side coverings, as well as the newly developed drive system;

total and precise washing and drying, with results that can easily be compared to those offered by high-end gantry but with almost double the productivity;

the choice of accessories and optional washing groups for even better results;

sophisticated software to control the brushes and patented drying system. Air Plus unites advanced technology with unsurpassed simplicity.

High-quality construction, balanced price-quality ratio, low operating costs, energy savings and low environmental impact: these are just some of the other strong points of a system that plays an important role in the Ceccato product range, guaranteeing quick return on your investment.
